Coastal Engineering Holds Beach Clean-up Day

Coastal Engineering Company, Inc. (CEC) participates in the Town of Dennis' Adopt-A-Beach program. CEC adopted the Glendon Road beach area, and held its annual beach clean-up day on May 21. CEC staff rolled up their sleeves and cleared trash and other debris from the sandy shores and parking lot to ready the beach for visitors. A fall clean-up will be scheduled after Columbus Day.

CEC is committed to participating in community service events and other sponsorships with local charitable organizations and municipalities. Coastal's President, John A. Bologna, P.E., considers the company's partnership with the Town, "...as a part of our on-going community service program and continuing sponsorship of local organizational events -- and part of my personal challenge to all staff to be actively involved in their local communities".

Coastal Engineering is a leading provider of civil, structural, and marine engineering and land surveying services for commercial, residential, and municipal clients throughout Cape Cod, the Islands, and Southeastern Massachusetts.
