

FOR IMMEDIATE RELEASE

November 1, 2010, Orleans, MA - Martin "Reggie" Donoghue, P.E., has achieved LEED AP, BD & C (Leadership in Energy and Environmental Design Accredited Professional with specialty credentials in Building Design & Construction) accreditation from the U. S. Green Building Council. Mr. Donoghue attained accreditation based on his advanced level of green building knowledge, a thorough understanding of the LEED Rating System and through LEED Certified project experience.

LEED is an internationally recognized green building certification system that provides a concise framework for identifying and implementing practical and measurable green building design, construction, operations, and maintenance solutions. It provides third party verification that a building or community was designed and built using strategies aimed at improving performance across such metrics as energy savings, water efficiency, CO₂ emissions reduction, improved indoor environmental quality, and stewardship of resources and sensitivity to environmental impact.

The LEED AP Building Design & Construction accreditation is for professionals participating in the design and construction phases of high-performance, healthful, durable, affordable, and environmentally sound commercial, institutional, and high-rise residential buildings.

Mr. Donoghue was a member of the LEED project team for the Wellfleet Bay Wildlife Sanctuary, Wellfleet, MA – a LEED Platinum project. He is a registered professional civil engineer in practice for more than 26 years. He is Civil Engineering Division Manager at Coastal Engineering Company, Inc., Orleans, MA, and oversees project management of numerous state, municipal, commercial, and residential projects.

Coastal Engineering Company, Inc.'s depth of project experience includes site, civil, and environmental engineering; technical services; structural engineering; marine and coastal engineering; and land surveying.

Coastal Engineering Company, Inc. is committed to a vision of sustainable growth for its clients and community.
